

NuGOweek 2023

Impact of nutrition during different life stages – *tracing the impact of diet on human health*

Senigallia, September 5-8, 2023

We will have plenary sessions on:

- Early biomarkers of disease: What is new?
- Nutrition along life: learning from the exposome
- Nutrigenomics in the control of low-grade inflammation
- Tools to trace the impact of nutrition and lifestyle on health
- Strategies to “rejuvenate” organs
- Social and gender inequalities drive unhealthy outcomes
